

# FilmScan 3600

## 35mm Slide, Strip and Roll Film Scanner

## Main Features

### • High Resolution & High Dynamic Range

With its high 3600 dpi optical resolution, film can be scanned and printed at well over A4 size (300dpi output). The maximum dynamic range of 3.6D captures subtle highlight and shadow details with highly accurate colour reproduction.

### • Supports 35mm slides, strips and roll film

The easy-to-use auto-loading system enables batch scanning of up to 40 exposures in a single 35mm roll at a time. Fast and convenient with both positive and negative film.

### • Advanced auto-focus system

Automatically delivers sharp accurate scans, every time.

### • Includes Adobe® Photoshop Elements®

The new, easy-to-use image editing application from Adobe Systems Inc is the perfect partner for the FilmScan 3600 on both Macintosh and Windows platforms.

### • Fast FireWire and USB connections

Choose between the convenience of plug and play USB or superfast FireWire connections. A PCI FireWire card is included for Windows.

### • Fast performance for Mac and Windows

With a 3600dpi scan time as low as 50 seconds (via FireWire), this is one of the fastest 35mm film scanners available today.

### • Two year Total Support

Total Support offers 24 months telephone support plus a replacement scanner should the hardware fail in the 2 year period.

Scan 35mm Slides, Strips and Roll Film, Positive or Negative

### Specifications

Scanning Area: .....24.3 x 36.5mm (35mm)

Optical Resolution: 3600 x 3600 dpi

Colour Depth: .....36-bit

Density: .....3.6D (Maximum)

Film Size: .....35mm Strip, Slides, Roll

Film Type: .....Positive and Negative

Dimensions (mm): ...238(L) x 103(W) x 177(H)

Weight: .....2.2KG

Light Source: .....Cold Cathode Lamp

Interface: .....FireWire & USB

Sensor: .....CCD

Warranty: .....2 Year

### System Requirements

• CD-ROM drive, 24-bit Colour Display, 128MB RAM (256MB Recommended)

#### - FireWire

Pentium II PC or later, PCI slot for FireWire card, Windows 98SE/2000/Me/xp iMac, G3, G4, PowerBook, Built-in FireWire, Mac OS 9.x

#### - USB

Pentium PC or later with USB support, Windows 98/98SE/2000/Me/xp iMac, G3, G4, PowerBook with built-in USB support, Mac OS 8.6 through 9.x

### In The Box

- FireWire & USB Cables
- FireWire Card
- Power Adaptor
- CyberView Scanner Driver CD
- Adobe Photoshop Elements CD
- Slide Mounts x2

Microtek has won more awards and has a history of more scanning innovations than anyone else in the desktop scanner industry.
