FilmView

View Slide Shows of Your Family Photos on Your PC or TV!

Use your photos to create fun and entertaining slideshows with Ulead® DVD PictureShow®. Burn to CD-R or DVD-R with DVD+R/W drives and your friends and family can now enjoy photographic slide shows on your domestic DVD player. Windows only. Works in most DVD players.

Main Features

- **2400 x 4800 dpi Optical Resolution**
High resolution allows significant enlargement of small images for high-quality reproduction. The ScanMaker 5900 uses an advanced CCD system allowing very high levels of detail to be captured.
- **True 48-bit Colour Resolution**
16-bit per colour channel technology allows 281 trillion colours to be captured in the scan, producing detailed, vibrant results.
- **5 x 4" TMA with FilmView**
A 5 x 4" transparency adaptor is included for positive and negative film scanning. A FilmView lightlid allows film to be visually previewed prior to scanning.
- **High-Speed USB 2 Port**
To give this scanner a real speed boost simply attach to a high-speed USB 2 interface (card not supplied). This scanner is also fully compliant with the common USB 1.1 interface standard.
- **Slim Design without Sacrificing Quality**
Most slim scanners available today use CIS technology, commonly found in fax machines. The ScanMaker 5900 uses superior CCD image sensors to maintain high scan quality.
- **Easy to Use for Macintosh & Windows**
The ScanMaker 5900 can be set up in minutes. Eight Smart Touch buttons allow numerous scanning functions to be executed with the single touch of a button.
- **Two Year Total Support**
Total Support offers 24 months FREE telephone support plus a replacement scanner should the hardware fail in the 2 year period.
- **Powerful Software Bundle**
Image Editing, OCR and Image database management are all catered for with the included software from Adobe, Ulead and ABBYY.

ScanMaker 5900

Cancel/Setup At the touch of a button, you can set your preferences before you scan, or cancel scans while your ScanMaker 5900 is running.

Scan Captures high-resolution images with outstanding quality that can automatically be sent to an application for further processing.

Copy Transform your scanner and printer into a colour copier! Make copies of your favourite photos or documents with the push of a button.

Email Share memories with your family and friends over the Internet. Automatically scan, optimise and attach your images to a new Email message at the touch of a button.

OCR Scan directly into Microsoft® Word® or other word processors. Push this button to turn your documents into digital files for easy editing.

Scan to Web Share your digital images quickly and easily over the internet. This button automatically scans and uploads your images to a photo sharing site.

Custom Allows you to set your preferences for power saving, scan, fax and launching applications after scanning.

Power On/Off Conveniently located on/off button preserves lamp life and saves energy.

SYSTEM REQUIREMENTS

- CD-ROM drive & 128MB RAM
- **Windows**
 - Pentium PC or later with USB port
 - Microsoft Windows 98/98SE/2000/ME/XP
- **Macintosh**
 - iMac or Mac with built-in USB support
 - Mac OS 8.6 through 9.x, Mac OS X (Nov 02)

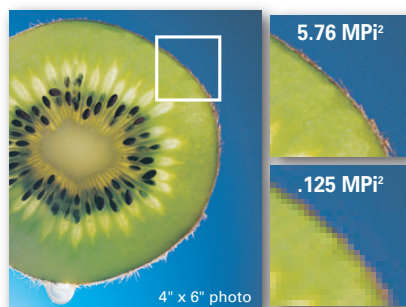

5.76 MPi²

MegaPixel per square Inch

More MegaPixels, More Value

	Photo Size	MegaPixel/square inch	Total MegaPixel
Digital Camera	4" x 6" photo	0.125 MegaPixel/sq.in	3 MegaPixel
ScanMaker 5900	4" x 6" photo	5.76 MegaPixel/sq.in 46x MORE	138 MegaPixel*

While digital cameras are great for people on the go, scanners offer versatility, quality and value. The ScanMaker 5900 offers up to 46 times more MegaPixels for more details, colours and memories, which make it easy when you want to enlarge your photo, create prints and share them.

ScanMaker 5900

3 MegaPixel Digital Camera

*138 MegaPixel is based on a 4"x6" photo scanned at 2400 dpi. Final MegaPixel will vary with photo size.

Microtek ScanWizard® 5 Makes Scanning Easier

- Choose between Standard and Advanced scanning controls to suit your level of expertise
